
(a) Bibliography composition
(N = 120 cited keys; systematic)
Method proposals
Practitioner / adoption
Critique / failure analysis
Surveys / position
Complexity-aware methods
Benchmarks / evaluation
Theory foundations
11.7%
28.3%
18.3%
14.2%
8.3%
7.5%
11.7%
(b) Cited papers per year by role
(from 2019, critique & complexity-aware work outnumber method proposals)
Method proposals
Critique / theory / benchmarks
Complexity-aware methods
Surveys / practitioner
Cited papers published that year
Publication year
(c) Cumulative cited papers by role
(method proposals plateau; scrutiny & complexity-aware climb)
Cumulative cited papers
Publication year
